

CLOSING THE GAP IN EARLY LANGUAGE AND LITERACY PREDICTORS

SEEDS of Learning™ is an early literacy and language solution designed to support childhood educators and other adults in ensuring kindergarten readiness through balanced and high-quality interactions. Our method is based on science, has been rigorously tested and proven to work for all children.

SENSITIVITY

Adults look, listen, and ask questions to become aware of children's needs, thoughts, abilities, and feelings.

ENCOURAGEMENT

Adults use intentional affirmations and positive non-verbal communication to create a shared positive learning environment.

EDUCATION

Adults embed the "Big 5" literacy skills into daily routine.

DEVELOPMENT OF SKILLS THROUGH DOING

Adults help children to explore their world through hands-on learning.

SELF-IMAGE SUPPORT

Adults provide a balance of the previous four elements, which help to support the children's feelings of being lovable, respected, and capable.

Who is it for?

- Anyone supporting the growth and development of infants and toddlers

Kindergarten-readiness is linked to becoming literate. SEEDS of Learning™ for Infants and Toddlers accelerates growth in five predictive literacy indicators. It consists of evidence-based strategies that are rooted in relationships, language, and reading science.

We support the effectiveness of strategies through asset-based coaching and training. We assess what is already working within a provider's program, assess opportunities for increased impact, and support the implementation and progress monitoring.
