Give Readers the *Practice* They Need with CC PAL

The App for Foundational Skills Mastery

To succeed as readers, your students need sufficient practice that's engaging, effective, and aligned with instruction.

The CC PAL app gives students the daily independent retrieval practice necessary to master and retain the vital foundational skills they're learning.

Aligned with Collaborative Classroom's evidence-based foundational skills scope and sequence, CC PAL meets each student at their individual instructional level with delightful practice activities and connected text reading.

Why CC PAL?

- **Daily, Targeted Practice:** Reinforces previously taught foundational skills instruction with interactive activities that provide skill, word, sentence, and text-level practice.

- **Self-Leveling for Growth:** Adjusts to each student's needs, ensuring just-right challenges.

- **Age-Appropriate Activities:** Designed to engage older readers as well as younger students.

- **Teacher Insights at a Glance:** Provides real-time progress tracking.

- **Research-Based Design:** Rooted in the science of learning's insights about sufficient, deliberate, and purposeful practice.

CC PAL Student Practice Activities

The CC PAL app offers a variety of interactive, engaging activities tailored to each student's foundational skill level. Activities include:

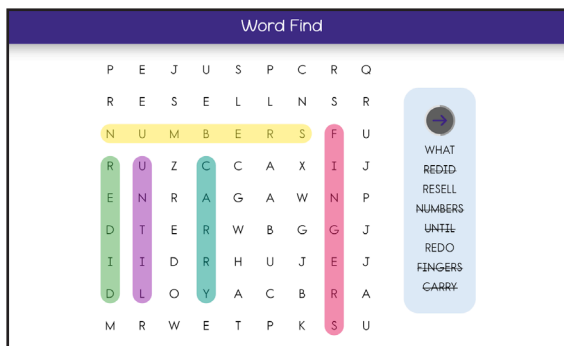

Letter Recognition

- *Letter Train*, *Letter Puzzle*, *Lunchroom Letters* — Build letter-name fluency in fun ways.

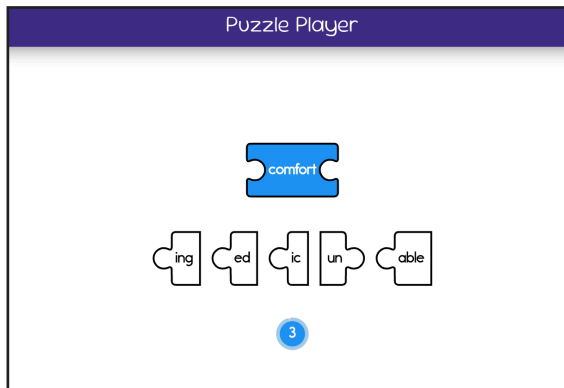

Phonemic Awareness & Early Decoding

- S*ound Detective*, *Sound Safari*, *Sound Gallery* — Strengthen sound-symbol connections through auditory and visual activities.

- *Sketch-a-Sound*, *Letter Leaders*, *Write-a-Word* — Develop early spelling and writing skills through interactive tracing and matching exercises.

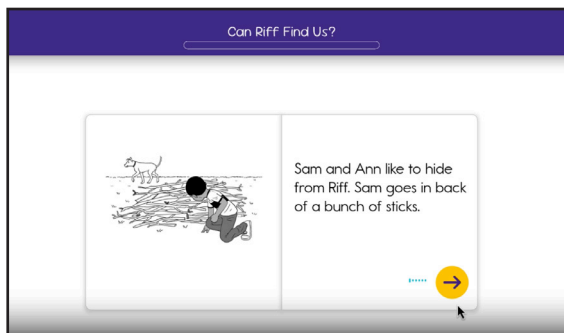

Phonics & Decoding Mastery

- *Burst-A-Balloon*, *Word Magic*, *Spelling Sound Match* — Reinforce letter-sound relationships and blending.

Advanced Phonics & Morphology

- *Super Syllables*, *Read-by-Syllable* — Build fluency with polysyllabic decoding.
- *Morpheme Mania*, *Puzzle Player* — Explore prefixes, suffixes, and base words to expand vocabulary.
- *Rhyme Time*, *Match the Vowel* — Strengthen phonemic awareness with fun, time-based challenges.

Connected Text Reading

- *Learning Library* – Students engage with decodable books, progressing from word-level to sentence-level practice before reading the full text.

"

I have found my students are highly engaged with the app. The activities hook students, and they look forward to them!
