Collaborative Classroom Literacy Kit

Phonics Manipulative Kit for Hands-On Learning and Practice

Collaborative Classroom and Hand2Mind have partnered to curate supplemental phonics manipulative kits for educators implementing *Being a Reader* Small-Group Reading Sets 1–5 or *SIPPS* Beginning and Extension Levels.

These hands-on manipulatives enable educators to easily plan engaging independent work activities that allow students to practice and apply taught phonics skills. Each kit provides materials for small groups of up to six students.

Each Collaborative Classroom Literacy Kit contains:

- Three-letter word puzzle cards
- Letter-tracing sensory pad
- Magnetic dry-erase activity tray
- Elkonin boxes
- Phoneme phones
- Word-building magnetic tiles
- Upper- and lower-case magnetic foam letters, stamp sets, and alphabet puzzle cards
